of
fame

Daas Baksteen provides a wealth of inspiration for every architect. Our extensive range of bricks encourages creative solutions. By keeping constant tabs on market developments, identified needs can continuously be translated into new ranges with regard to structure, size and colour. ClickBrick®, a patented system for dry stack bricks for external wall cladding, is a clear example of the innovative power of Daas Baksteen.

Company Daas Baksteen grants

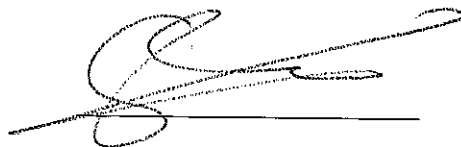

CERTIFICATION

The company Brick was informed with workflows for assembly of facing bricks and facing brick slips and pavers. The assembly can use company

Brick spol. s r.o.
